PROFILE

Full stack software engineer with 4 years of experience on business applications. Java and Spring Boot on the server, Angular on the client; also Laravel, NestJS and Next.js depending on the project. I take my applications all the way to production with Docker Swarm and continuous integration.

PROFESSIONAL EXPERIENCE

 **Full Stack Developer** Oct 2025 – present
Conserto, on assignment at Safireo Nantes, France

- Designed OData web services for data exchange between business applications.
- Integrated Power BI Embedded and worked on its performance.
- Set up the project's CI/CD pipeline.

Stack Java, Spring Boot, OData, Angular, Power BI, Docker

 **Co-founder, Full Stack Developer** Jun 2025 – present
Walsia, software company, Kinshasa · Paris · Nairobi

- Technical lead on 7 projects (SaaS products, marketplace, websites) for clients in the DRC, Canada and Belgium.
- Deploy every project through CI/CD on Docker Swarm.

Stack Angular, Spring Boot, Laravel, NestJS, Next.js, Docker Swarm

 **Full Stack Developer** Sep 2024 – Sep 2025
Cedreo Nantes, France

- Built REST APIs covered by unit tests.
- Redesigned the API contract to improve maintainability and performance.
- Managed Angular application state with NgRx.

Stack Java 17, Spring Boot, JUnit, Angular, NgRx, MongoDB

 **IT Technician** Oct 2023 – Oct 2024
CCS, Crédit Mutuel – CIC Nantes, France

- Level 2 support and development of an incident-tracking dashboard.

Freelance Web Developer Nov 2022 – Jan 2024
Self-employed

- Designed and launched showcase websites for independent professionals and small businesses.

EDUCATION

 **Master's in Software Architecture** 2025 – 2027
ESGI, Nantes, France

 **Bachelor's in Software Architecture** 2023 – 2025
ESGI, Nantes, France

 **Mathematics and Computer Science, first year** 2021 – 2023
University of Angers, France
